First circular & Call for papers

Dear Colleague,
the Organizing Committee is pleased to invite you to the **8-th Spin Conference on Nitroxides, 10-14 September 2017**, held in the magnificent scenario of the *Orto Botanico* of the Un. of Padova (Italy). It is the major international appointment, held every three years, devoted to **Nitroxides** and **Spin Traps**.

TOPICS:

- Synthesis, structure, and properties
- **Spin labeling, probing, and spin trapping**
- Magnetic spectroscopies
- **Structural and dynamical aspects**
- Applications (medicine, biology, chemistry)
- **Nitroxides for imaging**
- NO[•] biochemistry
- **Applications in material science**
- Supramolecular systems and molecule-based magnets

It is an occasion for the most prestigious scientists in the field to present their studies and gather for stimulating inter-field exchanges of ideas and opinions. The last two editions of the Conference were held in Zelenogradsk (Russia, chair Alexander I. Kokorin, 2014), and in Marseille (France, chair Paul Tordo, 2011).

We are looking forward to seeing you in Padova.
