

SIB PROTEIN GROUP NEWSLETTER 4

Check for update on
<http://www.biochimica.it/proteine/>

- **“Bridging the gap between cryo-EM and crystallography”**. The school will be held in Pavia, Italy, from 3 to 6 September 2017. The School is organized by AIC with the collaboration of the SIB Protein Group. Two fellowships for 150 euros are offered to participants of the course that are young SIB members. Please, send requests to andrea.mozzarelli@unipr.it with motivation letter and CV. For further info: <http://www.cristallografia.org/aicschool2017/eng/detail.asp?idn=2963>

- The SIB National Congress will be held on **September 20-22** in Caserta. The program and registrations at <http://www.sib2017.it/>

- Due to the success of the first **“Advanced School on Protein Structure and Dynamics: from Spectroscopy to Mass Spectrometry”** organized by the Protein Group and the Italian Mass Spectrometry Society, held at the University of Parma and Chiesi Pharmaceuticals, on February 22-24, 2017, a second edition will be held **on September 27-29, 2017**. Registration will be open within the next week. Participants are limited to 12. Applicants to the first School and not accepted are already registered, therefore the available positions are limited. A few fellowships are available to cover the expenses only for young SIB members. Please, send requests to andrea.mozzarelli@unipr.it with motivation letter and CV.

- A short meeting of the Protein Group is planned in the late morning of September 20, before the beginning of the SIB meeting in Caserta.

- Election of the Coordinator of Protein Group for the years 2018-2019 is planned for June-September:

Passaggi chiave della fase elettorale, che prevede **la fine di Giugno come termine per la presentazione delle candidature e i primi quindici giorni del mese di Settembre dedicati alle elezioni telematiche.**

Le **candidature** ufficiali dovranno essere inviate per posta elettronica entro il termine perentorio del **20 Giugno** alla segreteria scientifica (segreteria.sibiochimica@gmail.com), accompagnato da un CV e da una lettera motivazionale. Le candidature, e quanto ad esse riferibile, saranno rese note a tutti i Soci sul sito web della Società e con una email a fine Giugno, insieme con le modalità di votazione. Sarà a breve inviato a tutti i Soci l'invito, se in regola con la posizione societaria (pagamento della quota 2017), a confermare o ad esprimere la loro adesione ad un massimo di 2 Gruppi.

A questo proposito, vi comunico che è mia intenzione ricandidarmi.

- I received and forward to you the info on:

Dear all,

As we may know, we are organizing The Sao Paulo **School of Advanced Science on Biophysical Methods to study Biomolecular Interactions**, which will be held in the Institute of Physics, University of Sao Paulo (Sao Paulo, Brazil) from October 16th to October 27th 2017. The School is totally supported by FAPESP.

The main goal of the Advanced School is to provide young researchers (PhD and postdocs) with the state of the art of theoretical and experimental tools to study Biomolecular Interactions. The students will meet prominent biophysicists in the field and other young scientists in an attractive and convivial environment. For details and scientific program: www.fap.if.usp.br/~espcabio

Very important: a significant number of travel grants (75) are available for eligible participants from other countries and Brazilian states other than Sao Paulo. We can afford air-tickets and living expenses **for 50 foreign students** !! So, this is a great opportunity to the foreign students to come to Sao Paulo, to learn with renowned scientists and experience our facilities. There will be hands-on in several experimental techniques!

Submission of applications/abstracts is **open until June 18th 2017**. More details: www.fap.if.usp.br/~espcabio

- Please, send to me info on Workshops, courses, schools, PhD positions, fellowships on protein research to be diffused to all members of SIB Protein Group.

With best regards

Andrea Mozzarelli

SIB Protein Group Coordinator

Parma, May 30, 2017
